

## Health Clinic

Smiles everyone, smiles!! Ok, mostly smiles were on the 80 little faces that exited the San Juan Elementary school Dental Clinic on Saturday March 2<sup>nd</sup>. Some who required more extensive treatment weren't so full of smiles initially. **Dr. Done** lead the charge once again this year and his team which consisted of 50+ dental students from USC's Ostrow School of Dentistry and three other doctors. Our own **Dr. Carol Daderian** was there as well to provide assistance to the dental students and even performed a few extractions! Many of the children treated had cavities and needed general cleaning, some required extractions and a few restorations were performed. In addition to the dental services, audiologist **Dr. Jeri Wallach** and optometrist **Dr. Onishi** were on hand to provide hearing and vision screening services as well. Officer Steve Miles provided Child Safety Seat instruction, special thanks to **Joe Soto** aka "The Grandest Grand Marshall" for coordinating that! Other services provided included BMI Screening

Special thanks to **Silvia Pule, Dr. Carol, Dave Adams, Steve Rose, Steve Cohen, Jeanne Walker, JJ Hurst, Dotty Frankel, Cindy Russell,**

**Greg Sykes, John Caldwell and Paul Murai** for their contributions to this event! And a very special note of thanks to the **AVID Club from San Juan Hills High School** for their contributions in making the Dental Clinic a success!
