Return this completed form to your District Rotary Foundation Grant Sub-Committee Chair(DSGC). Do not sent this form directly to Rotary International.

Rotary Club: Metroport

Project Number: P-2774

Project Title: Scholarship for student attending Tarrant County Community College in North Texas

Project Description

1. Briefly describe the project. What was done, when and where did project activities take place

There is a continual need for scholarships to help students, especially those from disadvantaged families, to attend college. It is predicted that over 70% of all future jobs in the US will require some higher education and that is even more true in the case of jobs in the STEM fields where available jobs will be most prevalent and living wage + productive. This project will establish a Rotary named scholarship to provide funding for students on a STEM related career path to attend Tarrant County College, Northeast Campus. Each scholarship will be up to \$1,500 per academic year and as a result of a MOU between R.I. D-5790 and TCCD the student will be eligible to receive a matching scholarship amount for their second academic year providing the student has maintained a minimum 2.5 GPA and has taken a minimum of 15 credit hours in the first academic year. Tarrant County College is known for its readily accessible, affordable and high quality education in an environment where where each student's success is of paramount importance.

The scholarships will be awarded as students are identified and funding becomes available. It is anticipated that additional funding will be added to this initial amount each year from a variety of sources and the scholarship will continue to be awarded as long as funding is available

2. How many Rotarians participated in the project? 33

3. What did they do? Please give at least two examples.

The club held fundraisers to support these scholarships

Collaborated with the college

Coordinated the application process

They held an awards program to honor the scholars selected

4: How many Non-Rotarians participated in the project? 30

5. What are the expected long-term community impacts of the project on the community?

There is a continual need for scholarships to help students, especially those from disadvantaged families, to attend college. It is predicted that over 70% of all future jobs in the US will require some higher education and that is even more true in the case of jobs in the STEM fields where available jobs will be most prevalent and living wage + productive. This project will establish a Rotary named scholarship to provide funding for students on a STEM related career path to attend Tarrant County College, Northeast Campus.

6. If a cooperating organization was involved, what was its role:

Tarrant County College manages the administrative responsibility for acceptance and distribution of funds for the scholars.

Financial Report (District must retain receipts of all expenditures)-The two yellow cells must be the same
