

District Grant Report

Rotary Club: Rotary Club of Villa Park

Project Title: P-4369 Entrepreneur Club Equipment

☐

Progress Report

☒

Final Report

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?
We purchased and assembled equipment, to create a 3D printing lab for the youth Entrepreneur Club at the Irvine Hebrew Day School in Santa Ana. The project was completed over several days, with a majority of the work happening on Monday, February 6th. The beneficiaries are the students and faculty at the Irvine Hebrew Day School in Santa Ana. We ended up spending all the DDF and were able to save money from the club contribution, since we adjusted the scope of materials purchased.
2. How many Rotarians participated in the project? 11
3. What did they do? Please give at least two examples.
The Rotarians helped assemble the work station, loaded and transported the equipment, assembled the 3D printers and computers and installed the software.
4. How many non-Rotarians benefited from this project? 120
5. What are the expected long-term community impacts of the project?
The community will benefit in many ways, from the enrichment of the students who now have the tools they need, to physically create their engineered designs. This will spark their interests in many fields including and not limited to: engineering, construction, science, mathematics, etc. and this will pave the way for innovation in many new career paths.
6. If a cooperating organization was involved, what was its role? N/A

Financial Report – Be sure that Income equals Expenditures!

7. Income

Amount

1. District Grant funds approved by the District	\$2,116
2. Club contribution	\$2,943
3. Other funding (specify)
