

District Grant Report

Rotary Club: San Clemente
Project Title: Promoting Positive Discourse

☐ Progress Report ☒ Final Report

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?

This event brought together community members from all walks of life for a full-day workshop called 'Difficult Conversations: The Art and Science of Working Together.' The workshop was interactive and deeply introspective for all attendees, and provided a set of strategies for engaging in difficult conversations in a productive way. The 50 attendees, and all those in their circles, will benefit from these lessons.

2. How many Rotarians participated in the project? 8

3. What did they do? Please give at least two examples.

The majority of the work done by Rotarians prior to the event was in planning, organization, and promotion, as well as ushering on the day of the event. There were 4 Rotarians that took the lead on those things, and the remaining Rotarians were attendees on the day of the event.

4. How many non-Rotarians benefited from this project? 40+

5. What are the expected long-term community impacts of the project?

There were about 50 attendees for this event, from all different backgrounds and areas of the community. There were elected officials or their representatives, business and non-profit leaders, and community members. Regardless of their background, all attendees walked away from the event with a better understanding of how to engage in positive discourse of any sort with others, which will have influence on their circles.

6. If a cooperating organization was involved, what was its role?

San Clemente Chamber of Commerce helped organize and promote the event, and sponsored the speaker. First Amendment Voice is the organization that initially brought this event to our community, and helped lead. St. Andrew's by the Sea also helped organize and promote.
