

### District Grant Report

Rotary Club: Rotary Club of Long Beach

Project Title: Feeding the Future - Grab 'N Go

☐ Progress Report ☒ Final Report

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?

We created back packs (string bag style) for food insecure students at our two local colleges in Long Beach: CSULB and LBCC. The date of the project assembly and delivery was November 2, 2022. Purchases took place in the 3 weeks prior to this date.

(Please note: several generous donations allowed us to proceed with this project at the same level, even due to enormous increase in food and hygiene item prices).

2. How many Rotarians participated in the project? 100-120

3. What did they do? Please give at least two examples.

- One team purchased a variety of items (food and hygiene); working with several grocery outlet stores and markets in our area
- A second team arranged for pick up from the several locations and delivery to our assembly site
- A third team arranged for transportation to the pantry locations of the two school sites
- Our club then met at a regular lunch meeting and assembled the bags and prepared them for delivery

4. How many non-Rotarians benefited from this project?

1500 students at the two schools received the back packs filled with food/hygiene items (and the bags are reusable for future use at their school pantry sites).

5. What are the expected long-term community impacts of the project?

For the short term, the students received food and hygiene items for immediate use. Additionally they learned about the food pantry at each school location where they can get food needed (using the string bags we provided if helpful). We also included a book mark in each bag with our Rotary information, so hopefully students learned about the Rotary Club in their area.

6. If a cooperating organization was involved, what was its role?

The staff at each Pantry site provided support and valuable information for each step of the project – what items were most needed for their student population (this shifts slightly each year), dates and locations for the drop off and staff to assist on the day of the project for loading and unloading the finished bags.
