Project Description

1. Briefly describe the project outcomes. What was done? The purchase of decodable texts are aligned with phonics instruction, enabling young readers to practice decoding skills effectively. By providing access to high quality decodable texts we enhance the student's reading proficiency, boost their confidence and foster a love for reading. The use of decodable texts have been shown to significantly improve literacy outcomes particularly for struggling readers, by offering them structured and practicable reading experiences that build their foundational skills. The investment in early has a lasting impact on the student's academic success and lifelong learning.

When (dates) and where (city, state and country) did project activities take place?
Buckeye Arizona USA. The phonics program starts at the Buckeye Elementary School campus, The original K-8 campus in downtown Buckeye. The program will be introduced in the K-3 grades

Who were the beneficiaries? Number one the students. The school, the teachers and the District.

2. How many Rotarians participated in the project? 7
3. What did they do? Please give at least two examples. Participation in a visitation to the club by the Principal of the Elementary school and visitation to the school to see the program in action
4. How many non-Rotarians benefited from this project? 150 students, all the current and future teachers of these student participants.
5. What are the expected long-term community impacts of the project A more literate young person thirsts for knowledge. The High school benefits because they educate the student better and society benefits because you have educated graduates ready to work.
