

Herat Institute for Leadership Development
And Herat Rotary Club Training Project

Global Fusion is a fully registered 501.c.3; our current address is 6331 Boulevard 26, Suite 250, North Richland Hills, TX 76180. We have been engaged in development work in Afghanistan for 12 years. Graduates from our Institute for Leadership Development have been certified in a "Service Above Self" leadership style and have been working hard to charter a Rotary Club in Herat.

We just returned from a one-week training trip to Herat, Afghanistan. We trained a Leadership class of 30 men and women at the Institute for Leadership Development and worked on significant Economic Development projects. As a bonus we also trained the recently chartered Herat Rotary Club, and next year's leadership team. Dave Martella, Keller Rotary, was supposed to make the trip with me, but was unable to travel due to a recent job transition. The \$5,000 dollar grant helped offset travel costs, was invested in Rotary Gifts and several branded shirts, coins and pins that will help market and build the Rotary presence in the city of Herat. I also matched gifts on one of the Herat Rotary's projects. They had Rotary back packs made and filled them with school supplies for children from a local orphanage. So fun seeing this brand new club do great work in the name of Rotary.
