# Playing for a Chance to Learn

## Project Description

### Target Community

- Children with special cognitive needs from underprivileged families of the Juarez, Mexico area.

### Overview

- Provide special cognitive learning program scholarships to 80 children with special needs during a two year period.

### Strategic Partner

- Asociación Mexicana de Atención a las Necesidades Educativas Especiales y Discapacidad, A.C. (A.M.A.N.E.E.D).

### Sustainability

- Three instructors will be trained on Neurolinguistics Development focused on special needs kids.
- The instructors will be equipped with teaching tools enabling them to reach more children.
- 80 children will be able to participate in these special learning courses that will help them develop basic learning skills.

# Playing for a Chance to Learn

## Areas of interest

### Basic Education and Literacy

Program scholarships for elementary school children with special cognitive needs aimed at improving their basic learning skills.
