Date: 12 January 2023

To,  
The President  
Rotary Club of Makawanpur

**Subject: Request for the Humphrey Visual Field Machine**

Dear President,

I am writing to request the support of the Rotary Club of Makwanpur for the purchase of a new Humphrey Visual Field machine for Hetauda Community Eye Hospital.

Our hospital, established in 2008, has quickly become a trusted provider of eye care services in the region. On a daily basis, we provide eye care to an average of 300 patients, with 20-30 of those patients being glaucoma patients who require long-term treatment. We currently have one Humphrey Visual Field machine that has been in operation since the hospital's establishment, but it is in need of replacement to ensure that we can continue to provide accurate and timely diagnoses for our patients.

The Humphrey Visual Field machine is an essential diagnostic tool for glaucoma patients, and we are committed to ensuring its proper operation and maintenance. We are requesting the Rotary Club of Makwanpur's support to purchase a new Humphrey Visual Field machine.

We would be grateful for any support the Rotary Club of Makwanpur can provide to help us continue to provide high-quality eye care to the community. We assure you that the machine will be used in an optimal way and we will be happy to provide any additional information or documentation that you may require.

Thank you for your consideration of our request. We look forward to hearing from you soon.

.....  
Dr Sunil Thakali, MD  
Hospital Chief
