INSTALLATION PREREQUISITES FOR ZEISS INSTRUMENTS :

The ZEISS instruments are high-grade technological products. In order to ensure optimum performance and safe - proper working order of these products, we recommend the users to complete the following installation prerequisites :

Temperature :

For Operation - +15.....+30°C

For transportation and storage - -10.....+50°C

Relative humidity (without condensation)

For Operation - 0..... 65%

For transportation and storage - 0..... 75%

Air Pressure :

700 to 1060 HPa

- The operating rooms where these products are to be installed and used should be air-conditioned and dust-free.

Quotation No:	7767043919
Date:	10.07.2025
Page:	4 of 4

The dehumidifiers must be used to keep humidity in the operating rooms within specified limits throughout the day and night in order to avoid damages to optical and electronic components.

- The operating rooms should have electrical power supplies of 220 V +/- 10%, 50 Hz, single phase AC voltage power outlets with proper protective earthing . The neutral-to-earth voltage should be less than 5 V AC. AC Mains cable plug should be replaced to suitable current rating plug wherever required as per standard for safety reasons.

- Instrument must be supplied by ONLINE UPS (AC output 220 V AC , Sine wave and 50 Hz) of suitable power rating with proper protective earthing .

- The consignment should be opened and inspected in the presence of our personnel or personnel authorized by us. User instructions/manual must be followed for instrument intended usage.
