Stitching a Better Future

Project Description

Target Community

- Underprivileged families from the South East Juárez, Mexico area.

Overview

- To equip a sewing workshop at the CEMYP to develop vocational dressmaking capabilities in 25 mothers from South East Juárez to permit them cover their children Elementary and Middle school tuition.

Strategic Partner

- Centro Multicultural Yermo Y Parres (C.E.M.Y.P.)

Sustainability

- 25 mothers will be provided with portable sewing machines so they can learn dressmaking and can start their own sewing bussines while covering their children tuition by working at the CEMYP dressmaking workshop. The workshop will be equipped so that the income from this activiity can be used to provide for more scholarships.

Stitching a Better Future

Areas of Focus

Basic Education and Literacy

Scholarships for elementary and middle school will permit these kids to develop and have a better prospective for their life.

Economic and Community Development

With sewing training, the mothers of these children will be able to provide income for their families.
